

Feb 2017 – The Boards of both the PB Club & the Tennis Club met with the TPCA General Manager, Senior staff and three Directors to discuss needs and future expectations for each club. Items relating to costs, and locations of courts, sharing facilities and past submission made by the PB Club on needs and preferences were discussed.

TP Board Workshop Meeting January 18 2017

At the Timber Pines Board Workshop on January a concept plan was introduced for discussion which involves the future development of what is referred to as the Ambassador Property.

The concept plan identifies pickleball courts as one possible use amongst other use possibilities.

The purpose of the concept plan is to facilitate a range of uses that may be appropriate in a rezoning application to be submitted by the TP Homeowners Association to the County.

The concept plan outlines a hypothetical layout of buildings, courts, driveway and parking for the site if the rezoning was approved.

From the discussion at the meeting it appears that the Board will be seeking input from groups, villages and residents during January and February 2017

Incorporated below is the concept design.

Should have any questions contact either TP Board members or PB Board members.
